Commenting on the results, **Mr Lakshmipathy Deenadayalan, Chairman & Managing Director**, said,

Any Financial Institution needs to take care of 2 important functions – business and collections – to ensure that they deliver strong results across quarters. Five Star is fundamentally a collections first Company, which is also reflected in our result during the current quarter. The track record of the Company over the last many years clearly demonstrate that we will be able to maintain strong asset quality even in the most challenging times and this quarter is no different. We continue to maintain our philosophy of asset quality being the first focus followed by profitability and growth.

Needless to say, the last 2-3 quarters have been challenging for the entire financial services sector, especially for the small ticket lenders and more so from a collections perspective, given the overleverage and consequent stress build up. The last couple of quarters saw the unsecured lenders go through significant stress, which continues in Q3FY25 as well. Given a crisis of this magnitude, there will be some trickling effect on the other lenders as well, and there was a marginal impact that was witnessed by Five Star during this quarter.

However, I am happy to say that despite the marginal impact witnessed during the quarter, our asset quality and profitability continue to remain robust, when compared with many other players operating in this space. We have also grown a portfolio during the quarter, albeit at a slightly slower pace, with a view to be in line with our growth guidance.

During this quarter, we disbursed Rs 941 Crores of loans as against INR 1,251 Crores in Q2FY2025, with a clear view to bring down to our portfolio growth in line with our guidance. We added 69 branches during Q3FY2025 (a combination of fresh branches and branches that were split from the existing branches which have reached a certain size), leading to a branch network of 729 branches across 9 states and 1 union territory. We continue to invest in and maintain an appropriate infrastructure framework which will ensure that the Company has the right framework to manage risk in an appropriate manner.

On the collections front, we saw a good set of numbers for Q3, despite the headwinds mentioned above. Our unique customer collections came in at 96.7 %, which is a very marginal drop from the previous quarter, and we had a total collection efficiency of 98%. When viewed from a sectoral context, both are impressive numbers. Consequent to the slight drop in collections, there was also a marginal increase in gross NPA by 15 bps from 1.47% in Q2FY25 to 1.62%. We also saw a marginal inch-up in our 30+, which stood at 9.16% as of Q3FY25. We will continue our sharp focus on collections to ensure that the asset quality remains one of the best in the industry.

During the quarter, we received incremental debt sanctions of Rs 1,400 Cr, availing Rs 1,045 Cr. We continue to diversify our borrowing sources and towards this we obtained funding from HDFC Mutual Fund, HSBC Mutual Fund and SIDBI during this quarter. This has helped bring down our bank borrowing from 70% as of September '24 to 65% as of December'24. On a Y-o-Y basis, the proportion of our borrowing from banks has dropped from 84% in December'23 to 65% in December'24. Cost of funds on the book has almost remained flat at 9.63% for the quarter. In addition to unavailed sanctions of Rs 600 Cr, we have a robust liquidity on the balance sheet of Rs 2,145 Cr.
